Swimming Carnival

Achieving excellence at your local central school

Accountable and Professional
PRINCIPAL’S REPORT:

Congratulations to all that were involved with the Swimming Carnival last Friday. Miss Border and Mr Coote did a fantastic job in the organisation and it was pleasing to see them both assist the teacher’s medley team to victory. Apparently last year’s PDHPE teacher was the weakest leg in the swim team and the staff were happy to punt him. The greatest aspect of the day is the community involvement and support. I mentioned at the carnival the positive impact that the success of the swimming club has had in developing the students swimming ability. To all those that helped time keep and support it is greatly appreciated.

The house captains on the day did a fantastic job and it was very pleasing to see Paul McClure, Roudey Porch, Billy Kramer, Jake Monk, Connor Wilkin, Ailee Tremain, Harry Pittis, Darby Tremain, Victoria Brown, Phoenix Blatch, Charlie Iffland and Alison Brown excel in their leadership role. Congratulations to Paterson House for winning the day.

ESSA results will be posted out today for students that were in Year 8 last year. Mr Horley has done a brilliant job in lifting the profile of Science and the results of the students highlight this.

P and C: I look forward to the P and C meeting which will be held at 4pm in the Hall on Tuesday 10th. We have some outstanding community members and I look forward to working with you tomorrow and in the future. We have had an active P and C in the past and I believe we will have an even better group in 2015. You may notice that the school entrance on King Street now has a closed gate. This is still the main entrance to the school. Please ensure that on arrival and exit of the grounds, you close the gate behind you.

Tender: There are some laminated Benchtops that were in the computer room that need to be removed by Friday, feel free to speak with Jenny Sullivan in the office regarding the tender process. Tenders will close Thursday 12 February at 1pm.
